DETAILED ACTION

1. Claims 1-5 are in the application.
2. In figure 5 of the drawings, reference numerals 27 and 28 are transposed.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 19, it is not particularly clear what is meant by "pedal drive shaft forming crank member"; there is no proper antecedent for "crank member".

In claim 2, line 2, there is no antecedent for "the drive portion".

In claim 3, line 3, there is no proper antecedent for "the paddle crank arm".

Claim 5 is in improper form as it has a multiple dependency. Multiple dependent claims can refer to other claims in the alternative only. Additionally, the alternative phrases in this claim make the claim indefinite.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ruff discloses a crank paddle system for propelling a boat. Knaver discloses a transfer system to transfer rotational power to paddling motion on a boat. D'Elloy discloses a manual powered paddling system using a plurality of levers. Stolzer discloses a foot operated paddle system. Owen discloses a similar paddle system.
